TENTATIVE INFORMATION REGARDING 20-21 RETURN TO SCHOOL

BACK TO SCHOOL

There will be rotational acclimation days over September 2nd, 3rd, and 4th for groups of students to come to the building, retrieve their supplies, and learn the procedures and routines for returning to school. The schedules for these days will be announced shortly.

- The first day of instruction for all students will be September 8.
- We plan to start the school year on an A/B schedule at all grade levels.
  - Group A will attend Monday and Tuesday and every other Wednesday
  - Group B will attend on the opposite days. When students are not in school on their assigned days, they will learn remotely from home.
- All students K-12 will be provided a Chromebook and assistance will be provided for those homes without internet access.

SOCIAL DISTANCING

This A/B schedule with remote learning allows for us to safely bring students back in the building while still maintaining the six feet social distance rule as designed by Governor DeWine and local health officials. All staff will wear masks; students are encouraged to in classrooms but must wear masks in all transition areas such as hallways, restrooms. etc.

REMOTE LEARNING OPTION

We are offering a remote learning option for Newton Falls students for the upcoming 20-21 school year where you can opt for your child to be taught remotely at home by a Newton Falls teacher. If you choose this option, students will only come to the building to receive their learning materials (approximately once a quarter). If you choose to change to in-person learning, you can do so at the end of any grading period. Staff will be making calls to every parent in the district to discuss/enroll in this option in the upcoming weeks.

PLEASE NOTE: THIS PLAN IS FLUID AND DETAILS MAY CHANGE AS WE CONTINUE TO RECEIVE DIRECTIVES FROM GOVERNOR DEWINE AND OUR LOCAL HEALTH OFFICIALS.
