MID-TERM Project

For your MID-TERM exam, you will be researching an assigned topic, creating a Power Point Presentation, and present it to class at the scheduled time.

YOU WILL LOOSE 50% of your points on this project if you do not present your project on the day it is scheduled in class.

Topics include: Network Cards, Video/Graphic Cards, Motherboards, Hard Drives, Cables, Memory, Processors, Keyboards and Mice, Monitors, and Printers. This will be assigned in class.

The project should be in the following format:

	Points
Total of at least 13 slides in your PowerPoint Presentation	
1 Title Slide – Show Title, Name, and Date	15
2 Slides – Definition of items and what the item is used for	26
3 Slides – Dedicated to at 3 different types of the item	39
2 Slides – Listing the top 2 manufactures and what their company does differently	26
1 Slide – Price comparison – Compare prices on-line listing ranges	13
1 Slide – Available features – What are the different things you can get?	13
1 Slide – Any dangers or warnings if any you have found in your research	13
1 Slide – Listing your sources in the proper MLA style we learned in class	20
1 Slide – Graphic asking for questions and concluding your presentation	5
Your presentation should last at least 15 minutes	50
You need to be able to answer any questions from the class about the item	40
The class will give you a rating, based on your research and the information that you present. This will be the average	10
You will need to print out your presentation and turn it in for credit, this needs to be printed with 6 slides per page and the heading/footer should list your name and the date	20
Attach any research that you used to the back of your presentation handouts	10
Total	**300**

EXTRA CREDIT – Extra Credit up to 20 points will be awarded and applied to the final score of your MID-Term and will be based on any that you do above these specifications. (i.e. handouts, graphics, animations, extra information)
